SOLID WASTE CLOSURE PLAN FOR PRESENT LANDFILL PER COLORADO CODE OF REGULATIONS FOR SOLID WASTES - JMK-0345-91

Reference G N Huffman Itr (4822) to T E Lukow, Minutes from June 12, 1991 Meeting with Colorado Department of Health, June 17, 1991

On June 12, 1991, a meeting was held between personnel from DOE/RFO, EG&G Rocky Flats and the Colorado Department of Health (CDH) regarding operations and closure of the Present Landfill, Operable Unit No 7 (OU 7) Meeting minutes were prepared by DOE/RFO and are enclosed

During the meeting, the subject of preparing a Solid Waste Closure Plan for the Present Landfill to comply with the Colorado Code of Regulations (CCR) for Solid Waste (Issue 2 of referenced memorandum) was brought up by CDH personnel CDH stated that a solid waste closure plan would be required in addition to the work plans/reports dictated by the Interagency Agreement (IAG) Upon review, the 6 CCR 1007-3 Part 265, Subpart G (RCRA Subtitle C) requirements are much more comprehensive than the CCR for Solid Waste Preparation of another closure plan would be redundant, result in unnecessary expenditures, and potentially conflict with documents prepared pursuant to the IAG

EG&G's Environmental Management recommends that DOE/RFO propose to CDH that the Solid Waste Closure Plan discussed above is redundant and that all requirements of this plan will be covered by the IAG
